

OPIELOK

Nautical / Technical Superintendent With ISM / ISPS experience

OOC Opielok Offshore Carriers is a German Platform Supply and Crew Transfer Vessel Operator with offices in Hamburg and Groningen.

With immediate effect we are looking for a Nautical or Technical Superintendent with good experience in ISM/ ISPS to join our Technical Department in Hamburg.

The candidate should have a solid Marine background and a focus on ISM/ ISPS. Preferably the person should have sailed as Chief Officer or Officer of Watch or worked in a similar position ashore.

In general the duties (in close collaboration with the Technical Director) will be

- Inspect all vessels at regular intervals and monitor maintenance system
- Monitor performance and develop budget for each vessel
- Promote compliance in accordance with requirements of ISM & ISPS standard
- Prepare dry dock
- Liaise on a day-to-day basis with outside technical suppliers, vendors and maintenance providers
- Conduct internal audits of the company's HSEQ system

This is a good opportunity for applicants to join our dynamic team of professionals working for the demanding Oil, Gas and Wind Offshore Industry.

Please send your application documents, including salary expectations to
